Latest NEWS and INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

** MOST WANTED SQUARES & DXCCs at the VHF-DX-Portal of MMMonVHF **

Just in advance of the active meteorscatter time of the year
(with gd EME condx and the MS showers in may and june) we would
like to remember that these services are only as good as YOU (as
the USER) are doing UPDATES at our different sources...

Please do yourself and all of us the favour and check and update
periodical the following links and tools:

eMWS (MOST WANTED SQUARES) >>> www.mmmonvhf.de/emws.php
MWDXCC (MOST WANTED DXCC) >>> www.mmmonvhf.de/dxcc.php

We will spread the Result mid/end of april, early enough...

If you hear or plan yourself a trip and/or any activity use:

INPUT of VHF-ACTIVITIES >>> www.mmmonvhf.de/newsuser.php
INPUT of UPDATES to NEWS >>> www.mmmonvhf.de/newsuserup.php

Thanks in the name of all USER of MMMonVHF and the team which is
always trying to pass you as soon as possible the latest News...

Announcement New DXCC 144MHz moonbounce: PJ4(FK52ud)
LATEST NEWS from PJ team, dated 2011-04-07: A long day of hard
work have passed. While building up the antenna system on the
tower we nearly lost the complete array due to high wind and

lack of the right materials on the island. While installing
the last 2 yagi's the other 2 came down and a boom landed on
Jurgen. A crossplate broke and it had to be fixed by a local
welder. While it was getting dark he climed into the tower to
fix the problem. See pictures and a small movie on
www.emelogger.com/bonaire Now we have some delay on our
schedule. Tomorrow we start building again at sunrise and we
try to be qrv as soon as possible, we need a few hours more.
But we still enjoy the stay on the island (no we did not see
much of it so far) SOURCE: Rene, PE1L, direct to MMMonVHF

EA8/DC2JWR Home-made QRP 6m & 2m Expedition LOC : IL18AQ
Canary Island - La Palma 17.04.2011 - 01.05.2011
With this internet site (http://ea8-dc2jwr.co.de/) I would like to
announce my expedition to EA8. On this expedition I will only use
home-made equipment and antennas. The pleasure of making a qso on a
home-made equipment is many times larger than working on commercial
equipment. I hope to make many nice DX QSOs and I would be very
happy if I could animate the self-construction activities in ham
radio through my expedition.

MUSKO Island (JO98) qrv during PERSEIDS 2011
This year I will be active in JO98 during the perseids. August 12,
13 and 14 I planned to be active from Musko island just south of
Stockholm. Only 3, depending on QRL maybe 4 days max. Running like

the previous years a single 9 elemens yagi and 500W out. No internet
connection so all QSOs are random, like previous years caling on
370 and switching to 380 when things are running good, hi.

** JW9DFA qrv HF, 50 and maybe 144 MHz from Spitsbergen Island **

Morten, LA9DFA, will be active from Longyearbyen, Spitsbergen Island
(IOTA EU-026, WLOTA 0125, WW Loc. JQ78TF), from 14-19 September 2011.
QRV on the HF bands, mostly CW but some RTTY and SSB as well. Will
work 50MHz if conditions allow (not likely!). Morten will also
participate in the Scandinavian Activity CW Contest (17-18 September)
using the callsign W3C. QSL both callsigns via LA9DFA, direct or
bureau and LoTW. QSL can also be requested for both calls via e-mail
to la9dfa[at]online.no . Website: www.qrz.com/db/LA9DFA - Meantime
there is a contact to Guy, DL8EBW, for a request about any 144 MHz
EME activity from JW...

** XV2RZ qrv from Phan Thiet, South-East Vietnam (WW Loc. OK40BV) **
Retu, XU7MDY/OX3RZ/OH4MDY will once again be active from Phan Thiet,
South-East Vietnam (WW Loc. OK40BV) on 4-17 April 2011 as XV2RZ. QRV
on 80-6m CW and SSB. QSL direct only to XU7MDY.
SOURCE: [AT International] via [ICPO] ICPO Bulletin (01-08 April 11)

** TK4DS qrv from island of Corsica (JN42) **

Operators Tonny ON1DNF, Jaak ON4PJA, Joeri ON7IQ, Jempi
ON7JPS and Geert ON7QC will be active from the village of Biguglia,
island of Corsica (IOTA EU-014, DIFM TK-001, MIA MCO-001, WLOTA 1390,
Grid Loc. JN42) as TK4DS from 21-24 April 2011. Plans are to be QRV
on the HF bands, using SSB and the digital modes. There is the
possibility of some VHF activity as they will be taking a 9 element
yagi for 2m and a vertical for 2m/70cm. The village of Biguglia is
located in the Canton [county] of Borgo, Department Haute-Corse/2B
and Province Corse (DPF 09). QSL via ON4PJA, bureau preferred.

** 5M, LIBERIA, qrv in April **

The I2YSB DXpedition team is now active as 5M2TT from Liberia until
April 13th. The team consists of Silvano/I2YSB, Vinicio/IK2CIO,
Angelo/IK2CKR, Marcello/IK2DIA and Stefano/IK2HKT. The pilot station
will be Art/IK7JWY. The group plans to use 3 stations for the HF
bands and one other for the 50 MHz band (w/beacon and cubical quad
antenna). Activity will be on 80-6 meters using CW, SSB and RTTY.
QSL via I2YSB (A OQRS is available -- See Web page for details).
An online log (provided by IH9GPI) is available at:
http://www.i2ysb.com/joomla5/index.php?option=com_wrapper&view=wrapper&Itemid=179
The official Web site is at: http://www.i2ysb.com

Official forum (for any comment, suggestion or to contact the pilot)
is available at: http://www.hamradioweb.org/forums The current QSO
count as of April 3rd, at 1556z is: 12871 QSOs with 6245 unique
callsigns (5317/SSB, 7327/CW and 227/RTTY).

LATEST NEWS directed by the Team, dated 2011-04-05:

Tonight we had problems with internet access and we remained
without uploading the logs from 00:00 UTC..... Given our
phisical effort in recent days, last night we decided to stop
transmitting early and try to rest a bit. So we did not lower
bands ..... we'll make this night! This morning we have
arranged and we have internet connection again (there was a
5 GHz bad link). There are still problems to the generators
and not only how they work..... We are been asked for an
increase in cost compared to the agreements and we are
evaluating different options ..... Unfortunately, the dollars
requested are many more and we do not know if we can meet the
cost .... in the event we'll have to agree on the hours of
blackouts to avoid excessive costs. Today will be a day spent
to discuss and find a better solution, but something tells me
it will not be a final agreement: I wonder why we are not
surprised about this.... We managed to somehow fix the
vertical but its efficiency is very low..... In RTTY we do
our best but we can not guarantee all the bands. We are
trying to satisfy all requests for contacts and sked but
keep in mind that we are 5 and we are not able to do
miracles... SOURCE: 425 DX News and VHF Reflector

** SV8/PA1FJ/p from Skala Potamias, Thasos Island **

Look for Fred, PA1FJ, to be active as SV8/PA1FJ/p from Skala Potamias
Thasos Island (IOTA EU-174, GIOTA NAS-037, MIA MG-124, WLOTA 4186)
from 13-19 September 2011. QRV on 40-6m CW and SSB, using FT-817,
Buddistick and 2x5m dipole. QSL via home call, bureau preferred.
SOURCE: [rsgbiota.org] via ICPO Bulletin (25 March-01 April 2011)

** PUERTO RICO, SPECIAL EVENT STATION **
50 years ago (on Apr 12, 1961) Yuri Gagarin was the first man
to fly into space and 30 years ago (on Apr 12, 1981) the
maiden flight of the space shuttle Columbia took place. The
special event callsign N4S in Puerto Rico remembers both
historic dates of mankind. They are working in SSB on 80m-10m
and in PSK1000 on 145.950 MHz. QSL via WP3GW.

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the

VHF-DX-Portal MMMonVHF and as well by a lot of free usable
HF-V-U-SHF-Info-Sources (named as SOURCE at the NEWS) and chats
like ON4KST-, RU-VHF-DX-Net, EA-V-U-SHF-Chat, N0UK-Chat and others.

** Many thanks to all our USER who did send us info and News **

Wherever we found the info we always indicate the source of the
info. If you get knowledge of an expedition, which is NOT listed
at our VHF-DX-Portal MMMonVHF or if you have additional info for
an expedition, PLEASE be so kind and send us this info at:

** www.mmmonvhf.de/newsuser.php or www.mmmonvhf.de/kontact.php **

The MMMonVHF-Team is always trying to spread any expedition info
as much up-to-date and reliable as possible and as long as the
info does not violate with our MMMonVHF-Policy ...

Have a lot of fun and enjoy the VHF-DX-Portal MMMonVHF!
